Advertisement and marketing Advertise through a student driven campaign within the university	HURDLES		Features	Constants	Pricing
	Strict major requirements	Has to abide by actual class limitations (actual meet times and class size)	Schedule creator contains a built in feature that shows a student the time it takes to get from one building to the next building	Amount of classes needed for a major cannot be changed	Would cost some amount to create a new software that would incorporate these new features
Advertise through various social media platforms such as Instagram, and TikTok.	Needs to be customizable to suit different grades, majors, and requirements	Needs to be different than other programs of the same purpose	Major specific classes have time slots that line up in sequence to give students an easier way to add outside electives to their schedule	Carolina core classes cannot be removed from the students required classes	If more classes were to be added, you would have to pay for more professors or for professors to teach more classes
Speak with the Student Counsel at USC and other colleges.	Can be difficult to make an ideal schedule for all students	Needs to have up to date information on which classes are being offered	Add additional online classes in order for students to have the ability to get the hours needed while having additional time to study for in person classes, and self pacing online	Amount of credit hours needed for certain scholarships	Raise fundraisers to cover some of the cost
Start a petition at USC.			Contains some sort of built in break when creating a schedule		
Staple flyers around campus
